WE RATE DOGS

ANALYZING AND VISUALIZATION DATA

Introduction

@WeRateDogs is a famous tweeter account for share images of cute and funny doges the account rates some doges and write funny comments on other dogs owners' accounts. We collect some from multiple data source and I did some cleaning and wrangling methods and also used visualisation and analysis tools like matplotlib to answer some questions like whom is the famous dog !!

Top 5 dogs depends on retweets

Analysts part

Here I tried to find which dog stages is the most popular and I found that pepper is the most popular.

In the chart bar above I compared all the dog stages based on the likes count of each stage and I found that doggo, puppy has the greatest likes count.

In chart bar above I compare all the dog stages based on the retweets count of each stage and I found that doggo, puppy have the greatest retweets number.
